

January 29, 2021

Dear Wildlife Enthusiast:

To aid you in planting wildlife food plots, Wildlife Mississippi is continuing its popular Wildlife Habitat Seed Program. It is designed to provide an incentive to establish and maintain food plots that will yield a variety of benefits to you as well as the species of wildlife you are managing.

Corn, grain sorghum, and soybean seed will be available through the 2021 Wildlife Habitat Seed Program. All seed has been treated and has excellent germination rates. **Winter wheat will be offered for pre-order in the Spring. Shipment of winter wheat will not be until the Fall distribution, which will be in September.**

When planted properly, the seed will be utilized by a variety of wildlife. White-tailed deer, turkey, quail, mourning dove and many species of songbirds will benefit from these plantings.

The guidelines regarding this program are simple and easy to follow. Anyone interested in obtaining seed should complete the order form enclosed indicating the type(s) and amount(s) of seed desired. There are two ways to order your seed. You can mail your order form with a check or money order for the full amount, or place your order online and pay by credit card at www.wildlifemiss.org. **Wildlife Mississippi will be receiving orders by mail and online until March 5, 2021. This will allow us to place orders in a timely manner to ensure that the orders will be filled. In the event of a shortage of seed, the orders will be filled on first come, first serve basis.** Persons ordering seed will be required to pick-up the seed at Amory, Greenville, Hattiesburg, or Flowood. Each participant will be notified by letter, phone, and/or email when the seed will be available for pickup.

Typically, our seed distribution ranges from mid to late April. If you desire to plant earlier than this, this program is not for you. Also, failure to pick-up your seed order at the time of distribution will result in loss of payment and seed. Distribution areas WILL NOT hold seed after the assigned pickup dates.

If you need another seed order form and/or copy of the technical specifications, please call us at (662) 686-3375 or go to our web site at www.wildlifemiss.org.

We look forward to working with you on this valuable program.

Sincerely,

Kelli Rexrode
Seed Coordinator
